

DOMESTIC CASESTUDY

Customer
Ms Ivory and Mr Hogg

Products and Solution Provided:
8 x Sharp NT175E1 175W

Fronius IG15 Inverter

This installation in the sunny north east coastal village of Tynemouth will generate an estimated 950 kW hours of electricity each year.

Our expert roofing and electrical team fitted highly efficient Sharp Solar Modules to a bespoke roof mounting system. The system as a whole was designed by our experienced technical department. Each project we undertake is catered to the needs of our clients and through our customer satisfaction surveys we strive to improve with every installation.
